GoldenAI Consulting

AI answering & booking systems for LA restaurants, salons, and contractors

NEVER MISS ANOTHER CUSTOMER

Los Angeles, CA

THE PROBLEM

Every missed call is a customer walking to your competitor. During a dinner rush, a busy chair, or a job site, your phone rings and no one answers — and that revenue is gone for good.

THE FIX

An AI-powered answering system that picks up every call, texts back missed inquiries instantly, and books appointments automatically — 24/7, without hiring anyone new.

STEP 1 — ONE-TIME

AI Readiness Audit

We walk your business and show you exactly where calls, leads, and repeat customers are slipping through.

The full $350 is credited toward setup if you move forward with a package.

WHY IT PAYS FOR ITSELF

A single new customer — one dinner reservation, one haircut client, one repeat contractor job — typically covers the entire monthly cost. Everything after that is pure upside.
